Do We Have'm To?

It seems that everybody is having a FESTIVAL, built around the leading money commodity of their section. There was the Apple Blossom festival at Winchester and the Dogwood Festival, and further up the cotton festival. Now, over in Virginia's Eastern Shore they're having a Potato Blossom Festival.

Well, we hate to have the dark tobacco section left out of the festival business, so the only thing we can think of at the moment is to have a festival, too, and crown the most efficient "spitters" and "chewers."

Remember The Sabbath

The editor of the Times Virginian recently passed through our state capitol city on a Sunday and noticed two facts, that were to him personally at least, displeasing. First we noticed that practically every moving picture establishment was wide open, doing business on the Sabbath day; and, secondly, we notic d that professional baseball was being played, virtually in the shadow of the state capitol.

That most vexing of problems, what should and what should not be done on the "Lord's Day", constantly presents itself. There are various schools of thought. Seldom does one find two people in complete accord over the matter. But there is one thing we do know, and that we shall lay before our readers:

The bulwark of religious feeling and tradition in America is to be found in the rural sections, especially in the Old South. The gilded machine has wrought many social upheavals in our cities. The hope of keeping the old creeds and old faiths is to be found in the smaller localities.

Before the matter goes too far for rectification, let us ask this question:

Do you look with favor upon Sunday moving pictures and Sunday professional baseball? We shall be glad to publish YOUR answers.

Our Flower Show

We have just read the lists and premium of the Flower Show to be held here May 30 under the auspices of the Garden Club.

We recommend a flower show as just the right diversion for an afternoon or two. Let's get behind it and put it across. Only the flowers, admire them, really pay tribute to those cultivating them. And then realize that nature makes a more complete job than any of us.

Henry's Raise

Good old fashioned American business methods went to the up and up this week when Henry Ford announced a $6 per day minimum wage for his employees. That's more like the American standard of living. And, remember, no government agency, of otherwise, sought it about. Just good old Yankee business methods.

Refreshing Relief When You Need a Laxative

Because of the refreshing relief it had brought them, thousands of men and women, who could afford much more expensive laxatives, use Black-Draught when needed. It is very economical, purely vegetable, highly effective. . . Mr. J. Lester Robertson, well known hardware dealer at Martinsville, Va., writes: "I certainly can recommend Black-Draught as a splendid medicine. I have taken it for constipation and the dull feelings that follow, and have found it very satisfactory."

How your MONEY WORKS FOR YOU IN A *Checking Account*

When you put your money in a savings account you get interest on it. In a checking account you get service for it—and let the bank draw the interest. In return for this interest the bank gives you privileges worth far more to you than the interest itself.

When you maintain a balance commensurate with your use of your checking account privileges, the bank will be reimbursed for the expense of serving you. Otherwise, the bank may properly look to you to meet this expense.

Money in a checking account is an investment that pays you real dividends.

The Letter Box

Editor Times-Virginian,

I was requested to ask you in my new, letter to make a little comment under the items in regard to the bond of families attending the Sun day School at Petty's Ford school house. There are so many "careless" ooder people, who should be trying to set an example for their children. This might be a great help. We would be awfully glad if you and Mrs. Robinson could come down and be with us sometime.

Yours respectfully,

Forest View Correspondent
